

IP/SIP 20 Watt Paging Amplifier

The Valcom IP/SIP 20-Watt Paging Amplifiers enable voice access to a single zone of one-way paging over an IP network, allowing page zones to be extended anywhere network connectivity is available. These amplifiers provide a comprehensive paging system for any building environment including: educational facilities, retail spaces, warehouses, corporate offices, campuses, parking areas and more.

The VIP-851-25 has output connections for line level and 25-volt speakers only. The VIP-851-70/100 has output connections for line level and 25-volt or 70-volt or 100-volt speakers.

Features & Advantages

SIP Access

Provides SIP access to legacy paging speakers.

Power Output

Drive up to 20 watts to speakers.

Supervision

Speaker wiring on 25-volt systems can be supervised.

Mounting

Designed for rack or wall mounting.
