

# PagePro IP

The PagePro IP Gateway is a SIP enabled gateway designed to be used with IP-based telephone systems. The PagePro IP gives you unlimited grouping or zoning, so you can group together as many speakers or horns as you need to reach your audience.

## Features & Advantages

### Night Ring/Bell

*Takes an inbound afterhours call and distributes throughout your organization.*

### Store & Play

*Eliminates feedback by playing the page after you've hung up.*

### Supports Legacy Systems

*Save money by using existing equipment.*
